Work Breakdown Structure

Heirarchical and iterative decomposition of the work of the project into managable work packages

- 100 % scope coverage
- Nothing BUT the scope is covered

Work Breakdown Structure

Rules

- Create the WBS with your team, **not ALONE**

- WBS should have least 3 levels

- Don't confure WBS work package to a task

- Naming convention – Name WBS item as noun and **NOT a verb**

Rules

- WBS lists your work breakdown / The task list is the breakdown of the WBS work package into actions

- The 100% rule – all of the scope has been captured

- WBS is **NEVER** complete or right in the first iteration

Rules

- Tasks have to be small enough to be assigned to individual resources – NOT the WBS

- The lowest level of the WBS is the **WORK PACKAGE**

Work package

- The work package is collection of logically grouped tasks on your Project Plan

Rules

- The 8/80 Rule – All work packages should be greather than 8 hours and less than 80 hours

Task

- Create work break down structure for a BANQUET
